OWOSSO, MICH., MAY 15, 1914.

Rev. C. H. Hanks attended the meeting of the state association of Congregational churches at Grand Rapids this week. On his return Wednesday he left for Zanesville, Ohio, called by the death of a long friend.

F. S. Dean has sold his grocery business on Chipman street to Carl Monks of Belleville, Mich., who has taken possession and will move to Owosso. Mr. Monks is an experienced man in the business and will carry a big stock of good goods.

Mrs. Margaret McBain is recovering from her recent severe illness.

OWOSSO GETS NEW MEDICAL INSTITUTE

Red Cross Doctors Looking Over Field. After Confering With Prominent Business Men They Decide to Open an Institute Here.

DOCTORS WELL RECEIVED.

They Are Pleased With the Prospects of Our Thriving City. Institute to be Located at 115 N. Washington St.

Owosso is already well supplied with physicians and a hospital, yet the many ailing and sick people in Owosso and the surrounding country and small towns will welcome the Red Cross doctors to this city and give them a chance to show their skill and the merits of their work, as they will pay special attention to treating those who are unable or do not have the means to journey to the larger cities and pay out large fees for the services of a specialist and medicines to cure some chronic diseases.

The Red Cross Doctors are trained specialists in the treatment of chronic diseases, and it is their aim to always cure without resorting to the use of the knife. Their method of treatment is based upon Panopathy, that is the term used by the doctors, meaning the universal knowledge of the Art of Healing. They do not believe in the knife and the narrow minded theories of the old schools of medicine.

The Red Cross doctors are the physicians who know by years of actual experience just what to do, whose opportunities to study diseases in all their phases have been unlimited, whose facilities are prompt and permanent care are unequalled, and whose methods of treatment are the most modern and efficient known to the science of medicine.

They are well pleased with the prospects of our thriving city, and after confering with some of the most prominent business men, they have decided to open an institute here which will be located on the second floor of 115 North Washington street.

They will be ready to receive patients the last of this week. Adv

Born, Thursday, to Mr. and Mrs. N. M. Halstead, Bradley street, a son. Special prices on groceries Saturday, May 16, at Collins' grocery. See ad in this issue. Adv

Glen Temple of Owosso, was fined \$8.53 for being pummeled in a fight at Cheesaning last week Thursday. The slaughter house one and a half miles north of Owosso owned by Wm. Telfer, was destroyed by fire Saturday morning. The building contained about 40 hives and some tallow, and the total loss is \$1,000 with some insurance. The origin of the fire is unknown. Men had worked in the house the day before and had a fire in the stove, but it was supposed to be out before they left.

THE JOHN DEERE NO. 999

THE NATURAL DROP

The John Deere No. 999 is the most accurate, and therefore the most desirable corn planter ever designed. Its extreme accuracy is obtained by means of its new and improved drop. That is, the seed cell and cut-off plates are so shaped that the kernels naturally lie on the hopper bottom in the best position to move toward, enter and rapidly fill the cells. The weight of the corn in the hoppers assists rather than hinders the filling of the cells. This construction secures the most accurate drop ever put on any corn planter, regardless of whether it is a flat drop or an edge drop planter.

Shifted at any time in the travel of the machine. The No. 999 is a real variable drop planter because it varies the distance in drilling as well as hilling and also gives a greater variety of distances than the ordinary planter and without the use of extra sprockets and plates. This can be done with practically no other planter.

All corn plates on the No. 999 Planter have 16 cells. Therefore you get the same drilling distances as can be obtained on other planters having 8, 12 and 16 cell plates, and without any change of plates.

When on 2 kernels, the same distances as 8 cell plates.

When on 3 kernels, the same distances as 12 cell plates.

When on 4 kernels, the same distances as 16 cell plates.

Tip Over Hoppers, Sight Feed, Perfect Cut-off Seed Plates for any kind of Corn, Sorghum, Milo, Maize and other seeds. Improved Forced Drop Valves, Disc Markers, Fertilizer and Pea Attachment.

Tell Us Your Tire Troubles

Don't get the idea that to tell us your tire troubles will bore us. On the contrary, we want to know them. That's part of our business, listening to motorists' troubles and helping them out.

If your tires seem to be going wrong, let us advise how to save them. Chances are the remedy will cost you little or nothing. Perhaps a small cut to repair or wheels are out of line or you need more air. Dozens of little things can happen to tires, that become big things if neglected. See us before those small troubles ruin your tires.

If you want new tires we can be of service to you, too, for we now carry a complete new stock of Fisk Heavy Car type tires, also Goodyear and Firestone. All sizes in stock.

Tell me your tire troubles. It will be a pleasure to help you.
